Re: Utility Audit Recommendation for Util Auditors, LLC

To Whom It May Concern:

Our company was referred to Util Auditors by another Arkansas based lumber manufacturer that they had worked with that claimed they had received thousands in refunds from their energy providers through their service.

Util requested a copy of our last month's energy billing statements and within 48 hours was able to let us know they had found errors in them.

Within 6 weeks of providing the bills I was informed that we were receiving thousands in refunds... The service was simple, nonintrusive and definitely worthwhile. We continue to save money monthly as a result of their efforts and I would recommend their service to any cost-conscious business.

Best Regards,

Jose Covas
