July 1st, 2015

Dear Interested Parties:

Reliant Care Management Company, L.L.C. operates 15 facilities dedicated to providing quality care to the frail elderly geriatric population, as well as those 18 years of age and old afflicted with mental illnesses in addition to a primary medical diagnosis.

Our facilities obtained significant refunds and continue to enjoy substantially reduced monthly operating costs as a result of consultation provided by Util Auditors, LLC and their team of experts.

Quality of care is our primary focus and improving it for our patients can be achieved by operating as efficiently as possible. Util brought to light overcharges and inefficiencies in billing that we would not have found if it were not for them. I would highly recommend their team to do the same for your organization.

Best Regards,

A handwritten signature in black ink, appearing to read 'Ashwin Dundoo', with a long horizontal flourish extending to the right.
