To Whom It May Concern;

As a Business Manager at 4Front Ventures/Healthy Pharms, Inc., it is my responsibility to assure that our operational expenses are optimized.

Being in the cannabis industry, our business is heavily regulated and there is little relative history regarding available programs, benefits, and incentives that we may qualify for with respect to our cost of utilities, and other services.

When we approached Util Auditors, among other audit firms, we quickly realized that their team possessed a superior level of expertise, which is exactly what we were seeking. The tools available to us as a client and the excellent communication from Util Auditors made them a clear choice of who we wanted to work with.

Within weeks they delivered a review and explanation of findings to our internal staff.

We approved their recommendations, and they went to work communicating directly with the utility to assure that we received every dollar that we were entitled to. Util Auditors really show cased their expertise when working with our municipal utility provider. The lighting department had done very few, if any, refunds in the past. Util Auditors was able to work with the utility provider to navigate all steps of the process and deliver the promised results in a timely manner.

There was very little time required on my part aside from providing just the initial documentation; the process was quick and painless, and we began seeing savings on the next billing cycle. This was a set it and forget it service!

I would certainly recommend the team at Util Auditors to any business seeking insight on where available operational cost savings may be.

Sincerely,

Kenneth Vollaro
Business Manager
Healthy Pharms Inc.
